NOVA PARTS SHIPPING INFORMATION

National Nostalgic Nova is pleased to offer the following parts for your Chevy II or Novas. Please note parts prices are changing all the time we try to keep this list current. Please DO NOT place orders from any price lists that have been issued in the past. If you have any questions about these parts or what they will fit, feel free to call us at 717 252- 4192 between 9-5:00 EST and to place your order. Or ask any questions.

We take PAYPAL and checks and money orders. We will give you a total when you order from us. We can also issue you an invoice through PAYPAL.

Shipping is determined by the weight and size of the box and address it is shipped to.

We Only Ship in the United States

If you don't see what you are looking for on our list, Please give us a call. We do have sources for many used parts.

Colors: Send us a color sample of what is ordered. We can also send you samples of what is available.

All orders to be shipped by freight must have a phone number attached to the order so the freight company can contact you in the event you cannot be located. All Freight charges must be prepaid.

Returns - If you have a return for any reason, call us for a return number. YOU MUST ALSO RETURN YOUR INVOICE COPY WITH YOUR RETURN. Returned item MUST BE IN SALE ABLE CONDITION AND IN ORIGINAL WRAPPER. No charge on returns necessitated by our mistake. Other returns subject to 15% restocking fee, 20% after 30 days. NO RETURNS AFTER SIXTY DAYS. Core refunds must be returned no more than six months after purchase for credit. We are not responsible for failure of any parts purchased through us. We will give you the manufactures contact information. For damaged parts received. Please contact the shipper you received the package from. Parts leave here in premo condition.

National Nostalgic Nova is pleased to offer you parts you cannot find new. We now have thousands of used Nova parts from hundreds of '62-'79 Novas. We don't have everything but we may have what you need. Call us with your needs, we'll be glad to help you find what you need. Phone 9-5:00 EST (717) 252-4192

(71) WIRING HARNESSSES

NNN is pleased to introduce to you wiring harnesses for your
'62-'74 Nova. These are of the highest quality parts available, built
from GM blueprints. Please order exactly what you need as these
harnesses are not returnable. Call with any questions.

 510140 62-67 Nova Classic update kit \$879.00.
 Classic Update Kits give you one of the most complete kits on the market to "Make Wiring THAT Easy". They are designed for specific year, make, and model configurations. The 1962-1967 Chevy Nova Kit is no exception. The kit boasts 14 features making it the most complete system of its type in the industry including:
 • New headlight switch with internal 30amp circuit breaker, retention collar nut, adjustable length shaft, and custom knob.
 • Standard turn signal flasher, hazard flasher and horn relay mounted on harness.
 • NEW compact ATO-Style fuse panel that is fully encased in a closed box assembly with two mounting pads. The fuse coverlid is labeled on the inside identifying all circuits by description and their respective fuse ratings. All high amperage output circuits incorporate the same superior spring steel reinforced terminals that are used in our Highway Series kits. This kit also utilizes a remote bulkhead assembly that mounts in the stock location. All required hardware supplied. Harness is laid out and formed to allow for nearly all after market accessories such as; gauge packages, wiper systems, heat and air conditioning systems, etc.
 • Original switch connector bodies - an American Autowire exclusive feature.
 • Steering column connectors can plug directly into most aftermarket steering columns or stock 1962-67 GM columns that use stock GM turn signal switches.
 • Separate under dash courtesy lamps for use along with your original dome/interior lighting.
 • Instrument Cluster wiring is designed with a "cluster harness disconnect" system for easy service and assembly. Original terminals, connectors (another American Autowire exclusive), and light sockets are supplied for stock cluster connections.

The system will also connect into most popular aftermarket gauges such as AUTOMETER, CLASSIC INSTRUMENTS, DAKOTA DIGITAL, STEWART WARNER, VDO and others.

- Rear body harness assembly plugs into the main harness in the stock location and our longer leads allow for stock or custom routing the wires. Rear body wiring includes backup lamp, stop, turn and tail lamp lead wires along with their correct light sockets, license plate lamp connection wire, and fuel tank sender wire and connection along with the proper trunk floor grommet.
- New floor dimmer switch is provided. Wire length and connection accommodate original floor mount dimmer switch.
- New ignition switch, tumbler and key are provided.
- GM bulkhead connectors for the engine and front light wiring are included (another American Autowire exclusive) and allow for easy installation with original or custom routing.
- Engine wiring includes connectors for original points type as well as H.E.I. distributors. Power and tach connectors supplied for GM H.E.I. distributors. Alternator connectors are supplied for GM "SI" series internally regulated alternators. GM "CS" series alternator adapter is available separately.
- Front lighting includes extra long leads that can be routed for stock or optional appearances. All headlight, park light and directional light connectors and terminals are provided along with a switched trigger wire for an electric fan relay (usually recommended with AC).
- Original style light sockets, connectors, terminals, etc. packed into every aspect of this harness, it makes it the most complete system of its type in the industry!

1962-67 Nova Rack/Pinion Conversion Kit With Column CBR
Price: \$3,367.00

Enjoy updated steering with the Church Boys Racing's "Basic" bolt in Rack/Pinion conversion. This "Basic" kit provides you with everything needed to completely upgrade your old steering. Learn to enjoy your Nova with a refreshed sense of confidence that when you turn the steering wheel the car will actually turn as expected. No more sloppy back and forth play in the wheel while driving at highway speeds. Parallel parking and simple parking lot maneuvering are made much easier with the manual or power version of racks.

Along with unsurpassed handling your new Church Boys Rack/Pinion kit will clean up the engine compartment by removing all of the old steering linkage. This allows the use of virtually any small block oil pan of your choice, no more deep sump pans for scraping the pavement with. Even the popular LS engine now has more than enough room to find its way between the frame rails. With out the extra steering linkage under the engine headers and exhaust become easier than ever to install.

Paintable steel, tilt, floor shift Ididit column, Floor support bracket, proper wire harness adapter, 2 Borgeson joints, DD shaft, Power rack and pinion, outer tie rod ends, C-N-C steering arms, Tubular cross member, Phasell lower control arms and a 1-1/8" sway bar.

PHASE II***** lower arms eliminate the use of the eccentric bolt and also eliminates the factory style of ball joint for a better more reliable screw in ball joint that is rebuild able and adjustable!

New and improved design*****1-1/8" sway bar optimizes tire clearance for larger tires (not pictured) and all rack kits complete with a Brand New Power rack exclusive to Church Boys Racing. Our new rack is 3 turns lock to lock and is a direct bolt in.

-67' Models receive a male spline adapter to convert to rack steering

Quick Facts:

-5 lug spindles are required

-Works with drop spindles (2 piece design with the bolt on steering arm)

NOTE: When using the Drop Spindle a 17" rim minimum is required with no more than 4.5" back space .

-Compatible with After market brakes

-Eliminates the steering linkage under the engine

-Front sump factory style pan is NOT compatible.

-Rear sump pan is required.

-Can be installed with the in line 6 with a rear sump 250 truck pan

-LS engines fit great with the use of the F-body oil pan

-Retains the stock appearance of the engine compartment

-Works with Stock upper and after market control arms

-3 turns lock to lock for the manual

-3 turns lock to lock for the power set up

-Power rack is the same cost, you provide the pump and lines (pump available 295.00)

-Easy to install using factory mounting holes

-Choice of Semi Gloss Black or Silver

-Tighter turning radius than other systems on the market

-Installs in a weekend

-7" SBC Harmonic balancer is recommended.

1962 - 1967 Nova Tubular Upper Control Arms - CBR - Semi Gloss
Black Powder Coat
Price: \$725.00

1962-1967 Nova Tubular Lower Control Arms- CBR- Semi Gloss
Black Powder Coat
Price: \$725.00

Current lead times are 5-7 weeks

Making a 62-67 Chevy II handle is made easy with these replacement Tubular Lower Control arms. By replacing your flimsy, stock lower control arms along with the rubber mounted strut rod you now can safely drive your precious 62-67 Nova any where with confidence. You will have a better more responsive handling suspension. In one afternoon you can transform your Nova into a great handling car that everyone will enjoy....drivers and passengers alike.

The Church Boys Racing Tubular lower control arms are a complete bolt in system that utilizes the factory mounting holes left behind from removing the strut rod brackets and stock lower control arm. Once bolted in place alignment is made easy with our Link adjuster for the caster and for the camber. Because we use the all new R-JOINT from RideTech, this allows us to to make alignment adjustments separately, which makes it much easier on the alignment technician.

Once your alignment is set it will maintain its settings. No need for continuing appointments. With the use of solid rod end spacers in place of the old rubber bushings your bolts will not come loose. Additionally there will not be a need for the pesky little lock out plates! Simple and saves you money.

1.250 x .120 wall Tig welded DOM construction
Complete with Grade 8 hardware
Black semi gloss powder coat
Does not affect track width
Works with all 62-67 Nova spindles and popular brake components!
Designed to also work with our popular Rack/Pinion conversion
Stock Sway bar does NOT bolt up. The Church Bar will be required.
